Selbstverständlich können Sie mit der SpeedWall Bibliothek auch in Ihrem CAD-Programm arbeiten. Das unterstützt Sie in Ihrem Planungsprozess und optimiert die Effizienz.

Of course it is possible to work with SpeedWall's library in your CAD program. This supports you in the process of planning and optimizes the efficiency.

X

SpeedWall ist modular. Die Wandrahmen können x-beliebig über- und nebeneinander kombiniert werden. Stufenlose Höhen (bis zu 9 m) und Breiten sind möglich. Die Eckprofile erlauben 11,25°-Schritte.

Mit den Quadratstützen bauen Sie genauso flexibel in der Horizontalen weiter – für Decken- oder Raumfachwerk.

SpeedWall is modular. The wall modules can be combined in any way side by side and upon each other. Continuously adjustable heights (up to 9 m) and width. The corner profiles admit 11,25° measures. SpeedWall is enormously flexible that allows a great latitude.

With the square column the continuing set up in the horizontal is just as flexible – for skeleton framing of ceiling and room.

SpeedWall

Ein Rahmen formt Ideen. Framing your ideas.

Einer für alles. Er baut, was Sie denken, sieht aus, wie Sie wollen, trägt, was Sie brauchen, zeigt, was Sie können und funktioniert immer wieder neu.
Mehr unter www.speeddimension.com

One for all. It builds what you think, looks like you want, carries what you need, shows what you can do and inspires you every time new.

>1,68 m

The elements of SpeedWall are simply put together with assembly springs. There is no need for special tools or knowledge.

Everybody is able to set up SpeedWall.

100 mm

The 100 mm twin wall system for excellent logistics: electricity, electronics, telecommunications – the elements of SpeedWall gather all of it and provide fast access at any time. It's not a problem to lay conductions or more power sockets ex post for example.

Furthermore the elements gather displays, spots, light, boxes and many more.

∞

SpeedWall can be covered with graphic panels on both sites. Here you have endless possibilities: 5 mm HDF mounted with Velcro tape, 8 mm decor panels or acryl with backlit. Endless fabric graphics over several wall frames without any interruption are a special highlight. No limits to your creativity.

3,5 min/m

In der Aufbauzeit ist SpeedWall nicht zu schlagen. Das spart Ihnen Zeit und Geld.

SpeedWall is unbeatable in its time of set up. That is time- and money-saving.
